Services and Technologies for professional catering since 1973

TECHNICAL CARD

power supply	Monofase
Volts	V 230/1
frequency (Hz)	50
motor power capacity (Kw)	2,7
net weight (Kg)	4
breadth (mm)	323
depth (mm)	370
height (mm)	105

PROFESSIONAL DESCRIPTION

INDUCTION table top :

- made on **stainless steel bodywork** ;
- cooking **surface** with a **diameter of 280 mm** ;
- **continuous power regulator** with **display** , up to a **maximum of 2.7 kw** ;
- suitable for **iron or magnetic bottom pans** ;
- external dimensions **mm 323x370x105h** .

THE ADVANTAGES OF INDUCTION :

- **very short preheating times** and **shorter cooking time** compared to other methods;
- **high precision** and **promptness of adjustment** ;
- **the heat produced is transferred completely to the food** to be cooked **without any type of dispersion** .

COOKING :

- the induction plate works by creating an **electromagnetic field induced in the container which, when heated, cooks the food** inside.

SAFETY :

- the **temperature of the appliance is much lower** than the classic plates, **thus reducing the risk of burns** ;
- **very easy to use**, it **automatically recognizes the presence of the container** .

CLEANING :

- the **lower temperature of the hob** makes **cleaning easier** , since the food residues do not burn and therefore do not become encrusted.
