PROFESSIONAL DESCRIPTION

DRYER POLISHERS CUTLERY-Tools, semi-automatic, on stand with wheels:

- built **entirely in AISI 304 stainless steel** ;
- **ACTIVE CONTROL technology** that will allow you to follow the various operating phases of your cutlery dryer in a simple and intuitive way directly from the control panel;
- **new electronic board** equipped with an **LCD display** that allows you to view the heating and **drying cycles** and **the expected deadline for replacing the corn cob** ;
- **great versatility** : in addition to cutlery, other small metal utensils commonly used in all kitchens can be inserted;
- the **drying and polishing** of the cutlery takes place in a **heated tank** moved by a **vibrator** and filled with **5 kg of hygroscopic granular corn** ;
- the **cutlery** and **utensils** to be dried are **placed in a special stainless steel basket** and **gradually immersed** in the **vibrating mass of hot corn granules** ;
- at the **end of the cycle** (50 seconds) the basket is **removed manually** ;
- Corn cob is a vegetal and biodegradable product and can be used for approximately 120 working days.
- **max output: 40 pieces of cutlery/utensils per 50 second cycle**;
- recommended for activities with a **maximum of 80 seats** ;
- suitable for small environments, where a single operator, during the cutlery drying cycle, can simultaneously dedicate himself to several tasks;
- **support with lower shelf and wheels** , two of which have brakes;
- tub lid.

Included:

- 1 Trolley support,
- 1 Pack of 5kg corn cob

Accessories/Optionals:

- 5kg Replacement Corn Cob Pack

CE MARK**MADE IN ITALY**
