

TECHNICAL CARD

power supply	Trifase
Volts	V 400/3 +N
frequency (Hz)	50
motor power capacity (Kw)	6,6
net weight (Kg)	196
gross weight (Kg)	210
breadth (mm)	560
depth (mm)	710
height (mm)	860

PROFESSIONAL DESCRIPTION

PIZZA MOULDERS for forming pizza dough discs with a diameter of 500 mm:

- **stainless steel construction**,
- **high hourly production**, without the use of specialized labor;
- the **perfect uniformity of shape** and thickness of the pasta disc without giving up the **traditional edge**, obtained thanks to the special shape of the chrome plates;
- the possibility of **easily varying the thickness of the pasta discs**;
- the creation, thanks to the action of the **electronically controlled temperature of the plates**, of a thin solid layer of starch gel on the outside of the dough, which allows, by retaining the gases, to obtain perfect cooking of the pizza even on the inside.
- This equipment, built entirely of stainless steel, is equipped with all the **safety devices** required by international regulations;
- **pizza diameter: 500 mm**;
- worktop height: 600 mm;
- maximum absorption: Kw.6,6;
- average consumption: Kw 4.6;
- V.230/1 Single Phase or V.230/3 Three Phase available on request.
