

PROFESSIONAL DESCRIPTION

INFRARED HOT PLATE on ALUMINIUM FRAME with LIGHTING for Application: shelf, shelves or suspended - COMPLETE RANGE with length from 457 mm to 1,829 mm :

- ensures **uniform heat distribution** , without cold zones;
- maintains the temperature of the food without drying it out or continuing to cook, ensuring maximum fragrance, safety and shelf life;
- The end result is a **hot or fresh dish ready to be served** ;
- The durable continuous aluminum body and robust mountings ensure product durability and quality;
- robust, non-deformable extruded aluminium casings from 457 to 1829 mm;
- The reflector does not blacken, ensuring **constant heat output** , the reinforced protection provides operator safety without affecting heat distribution;
- possibility of fixing with brackets, with chains or with the convenient C and T supports (Optional).

Accessories/Optional :

- pair of C-shaped supports h 343 mm
- pair of T-shaped supports h 343 mm
- ceiling fixing plates
- 60cm suspension chain
