depth (mm)	400
height (mm)	280

PROFESSIONAL DESCRIPTION

High density insulated container in polypropylene, upper opening for insertion of GASTRONORM 1/1 H 200 mm trays:

- **ideal for transporting food products** and when there is a need to maintain a **constant temperature**, different from room temperature;
- protects food from mechanical stress thanks to the thickness and structure of the closed-cell expanded polypropylene;
- lightweight and free from protrusions and sharp edges to protect the safety of operators during handling and transport operations;
- internal dimensions mm. 535x340x220;
- **High quality outer surface** ;
- The external surface of the new isothermal boxes, in addition to being pleasant to look at, **guarantees stability and durability** ;
- **Waterproof internal surface**, humidity and liquids are not a problem for our box;
- The internal surface is waterproof, thus preventing the leakage of liquids and making the box easier to clean;
- **Precisely shaped corners** ;
- The internal corners of the box have been rounded to further facilitate cleaning, thus helping to comply with current hygiene regulations, handles are even more ergonomic Diagonal opening;
- The lid can be easily opened from the sides thanks to a larger lever.
