PROFESSIONAL DESCRIPTION

Omnia is characterized by **clean, round and square lines** that can be used separately or in combination according to the needs of the table settings to be created.

Extremely distinctive thanks to the **particular width of the rim** and the **depth of the square plates and cups**, Omnia can be a source of inspiration for chefs who, through the personalization of their culinary proposals, wish to capture the attention of their guests.

From breakfast to dinner, from small and refined restaurants to large city hotels with large buffets, Omnia is perfect for **intensive use** thanks to its **reinforced edges** and the **stackability** features of the elements.
