PROFESSIONAL DESCRIPTION

INSECT EXTERMINATOR WITH GLUE PLATE, COVERAGE 100 m2 :

- **lamp exterminates insects** which, thanks to its **open design**, **increases the range of action of the UV lamp** ;
- **the capture takes place thanks to the large glue plate** which makes this product among the most effective on the market;
- **made of AISI 304 stainless steel** , it is characterized by its hygienic and silent catching system;
- **versatile thanks to the different possibilities of I montagg** (wall, corner, or suspension),
- all models are available in **the IP65 version** (protection against the ingress of water and dust);
- **maintenance is simple** and does not require tools for changing the lamps (recommended once a year) and for glueing plates (every 4/6 weeks);
- power 2x20 Watt;
- the trap action area is 100 m2;
- cable length 18.7 cm (excluding connections).

Included :

- n.2 glue plates
