

PROFESSIONAL DESCRIPTION

◦ OPAL GLASS

100% glass with a characteristic white color, thanks to the use of fluorine. Opal glass products are synonymous with hygiene, resistance to liquids, high resistance to shocks and ease of use. Opal glass products are dishwasher safe.

◦ TEMPERED GLASS

Glass treated with the technological tempering process which, by acting on the molecular structure of the glass, makes the products particularly resistant to impacts and temperature changes and makes them optimal for intense, safe and repeated use over time.

- All PRICES are UNIT ...for 1 PIECE
- The minimum order quantity is indicated on the individual items.
