Limescale is the main cause of all the problems of blockages and damage to pipes , taps , coils , boilers and of a notable increase in energy consumption that we often don't realize. The advantages derived from the use of softened water are concrete and tangible .

The MATIC MANU 8 mod. water softener has been designed to meet the needs of those who supply equipment for bars , large kitchens , restaurants , hotels and manufacturers or traders of coffee machines , roasters, ovens and dishwashers .

The main features of this softener are its **extremely small size** , its **compactness** , **suitable for installation in minimal spaces** and the **ease of carrying out the regeneration** which, combined with an application downloadable on APPLE and ANDROID, allows the regeneration to be carried out correctly and within the indicated times, without wasting time.

IDEAL FOR CONNECTING :

Ideal for convection ovens

Or:

N.1 2-group coffee machine
