#### PROFESSIONAL DESCRIPTION

##### Automatic Portioner :

- **machine designed for pizzerias , bakeries and pastry shops , makes work easier by significantly reducing preparation time ,** without interrupting the leavening process;
- **creates dough portions of different sizes , from 30 to 300 grams ,** with an innovative cone calibration system, using 5 easily interchangeable bushings;
- the whole machine is very robust and easy to clean and is **made of stainless steel and aluminum ;**
- **equipped with a 30 kg capacity tank** and works by extruding the dough using a spiral tool;
- equipped with **two combined adjustment systems to produce any weight of dough ;**
- Complete with SPEED VARIATOR for EXTRUSION Motor - increases the breaking speed,
- **hourly production of up to approximately 600 portions;**
- the dough moving parts are easily removable for cleaning and replacement;
- All components meet hygiene and safety regulations.

##### INCLUDED

- The divider located in the upper part of the table includes 5 CONES of different diameters which allow the following sizes to be obtained:
- 4 cm which allows you to make portions from 50 to 90 g
- 4.5 cm which allows you to make portions from 80 to 130 g
- 5 cm which allows you to make portions of 120 to 180 g
- 5.5 cm which allows you to make portions from 170 to 230 g
- 6 cm which allows you to make portions from 220 to 300 g
