

TECHNICAL CARD

power supply	Monofase
Volts	V 230/1
frequency (Hz)	50
net weight (Kg)	4,2
gross weight (Kg)	5,2
breadth (mm)	244
depth (mm)	210
height (mm)	252

PROFESSIONAL DESCRIPTION

**Professional portable 28 g/h ozone generator
capable of treating environments up to 180 m3 - NEW, BARGAIN PRICE**

- Given its **versatility**, the system allows you to **disinfect and deodorize** both means of transport and various types of premises (e.g. offices, apartments, clinics, restaurants, kitchens, common areas).
- Ozone, as a gas, has the possibility of **sanitizing even areas that are difficult to reach with ordinary cleaning**.
- Used to **prevent the formation of bacteria, mites, odors, viruses, spores, mold, etc.**
- Generation of **ozone** via **electrical discharge with quartz board**;
- **Ozone: 28 g/h**;
- Construction in **anodized aluminum and Aisi304 stainless steel**;
- Operation programming via **digital control panel** equipped with **safety lock**
- **Functionality:**
 - 1. daily start and stop programming 0-24h
 - 2. weekly start and stop programming
 - 3. treatment concentration programming from 1 to 4 ppm
 - 4. the programming memory remains fixed even in the event of a power failure

The Ministry of Health with protocol dated 31 July 1996 n°24482, recognized the use of ozone in the treatment of air and water, as a natural aid for the sterilization of environments contaminated by bacteria, viruses, spores, molds and mites.

CE mark
