Services and Technologies for professional catering since 1973

#### PROFESSIONAL DESCRIPTION

**PERFORATED RECTANGULAR PIZZA PEEL in ALUMINUM, NEAPOLITAN line, light, smooth and resistant, complete range :**

- This line was **designed to meet the needs of pizza makers who make pizza according to the Neapolitan style**, therefore in **traditional Neapolitan wood-fired ovens that reach 500 degrees** and churn out a **high number of pizzas**. The disc of dough is usually lifted onto the shovel by accompanying it with both hands and then expanded and stretched with skill towards the ends of the shovel. The **drilling of the shovel head** is functional to these movements: **the design, the circular shape and the quantity of the holes allow the ideal discharge of the flour**, taking into account the working gestures of the Neapolitan tradition.
- the altarpiece in the Neapolitan style:
  - **entirely in anodized aluminium** ;
  - **reinforced head to resist the most intense heat** ;
  - **light handle** from the Azzurra series;
  - **3 rivets that ensure stability and resistance** ;
  - **holes with a circular design to allow the flour to drain** ;
  - personalization of the line name done with laser engraving.

**CE MARK**  
**MADE IN ITALY**

#### AVAILABLE MODELS

**GI-AN-32RF**

**Rectangular perforated aluminum pizza shovel,  
dim.cm.33x33, handle 150 cm - mod.AN-32RF**

**€ 99,74**
