Services and Technologies for professional catering since 1973

PROFESSIONAL DESCRIPTION

PERFORATED PIZZA STICK in STAINLESS STEEL, ALICE line, light, smooth and resistant, complete range :

- **Peel entirely made of stainless steel** , they have an **oval shape with an increased head thickness** , which ensures the right strength even for moving small logs of wood inside the oven.
- **Tubular handle** and traditional attachment directly to the round blade.
- **Bottom of the handle and sliding element in a special polymer** with high impact and heat resistance.
- A joint on the bottom of the handle allows you to block the intermediate element and find it available at the top when the small stick is placed upside down.
- **Ovalized head with a thickness of 15/10 mm** to guarantee total robustness.
- **Highly resistant stainless steel** .
- **Robust and heat resistant** .
- **Sliding intermediate handle** .
- **Perforated version** .
