Services and Technologies for professional catering since 1973

PROFESSIONAL DESCRIPTION

HOLER FOR DRILLED ALUMINUM for PINSA ROMANA, BLUE Line, light, flexible and resistant, complete range:

- **Anodized aluminum shovel ideal for Roman pinsa or pizza alla pala .**
- Gi.Metal's proposal for "Roman-style" or "pala" pizza is to replace the wood, commonly used for this type of pizza peel, in favor of a **light, solid, long-lasting and certainly more hygienic material such as anodized aluminum .**
- **Neutral anodization makes the surface of the blade uniform, protecting it from oxidation, as well as guaranteeing incomparable lightness .**
- **The holes reduce friction , the amount of excess flour and the weight of the tool . The special arrangement of the holes makes the tool more stable , subject to less bending, ensuring the grip of heavier pizzas.**
- **Size: 23x40 cm.**
- Features: **Lightweight, Stable, Smooth, Long-lasting, More hygienic than wood.**

NB: The measurements indicated in the product are maximum external measurements - The useful measurements may differ by 5-10 mm due to the shaping/profiling of the product .

**CE MARK
MADE IN ITALY**
