Services and Technologies for professional catering since 1973

#### PROFESSIONAL DESCRIPTION

**PERFORATED ALUMINUM BOARD for PIZZA BY THE METER, AZURRA line, dim.cm 25x50 :**

- **Ideal for managing pizza by the metre/by the shovel .**
- **Material: Neutral anodized aluminium .**
- **Handle on one side, with milling on the front ,** to facilitate picking up and releasing the pizza into the oven.
- Unlike traditional wooden planks, **the use of aluminum makes the product light, solid, long-lasting, hygienic and easy to clean .**
- **In the perforated version the axis has holes on the entire surface , specially designed to provide low friction and discharge the flour ,** preventing it from sticking to the bottom of the pizza, risking burning.
- **Advantages: light, smooth, easy to clean, more hygienic than wood, with the same tool it is possible to bake, rotate and take the pizza out of the oven, front milling, available in 6 different sizes .**

**CE MARK**  
**MADE IN ITALY**
