Services and Technologies for professional catering since 1973

TECHNICAL CARD

power supply	Monofase
Volts	V 230/1
frequency (Hz)	50
motor power capacity (Kw)	1,00
net weight (Kg)	6,4
gross weight (Kg)	8,2

PROFESSIONAL DESCRIPTION

IMMERSION MIXER, ROBOT COUPE MP 800 TURBO TP, with 1 SPEED :

- **Specially designed for use in tilting bratt pans . Commercial/community catering** . The MP 800 Turbo is designed for use in tilting bratt pans holding more than 100 l of product.
- **Power** : Reinforced motorization thanks to the EBS electronic device, suitable for blending large quantities.
- **Robustness** : Robust construction thanks to the stainless steel motor block. Barrel, bell and knife entirely in stainless steel. Reinforced bell.
- **Hygiene** : Removable stainless steel bell and knife for easier cleaning and maintenance. Patented device by Robot-Coupe.
- **Ergonomics** : Double handle for optimal comfort!
Ergonomic handles for improved comfort of use thanks to better weight distribution of the device.
- **Ease of use** : Bell reinforced with stainless steel ring which makes the easy to move appliance in a brazier for better handling.
- **Removable power cord** : New patented "EasyPlug" system that allows you to easily replace the power cord in the event of a service call. Indicator light for the presence of mains voltage: rapid detection in the event of a power cord failure. The green light comes on if the cable is not damaged and is correctly connected on both sides (wall socket and Easy plug).
- **ENGINE BLOCK**
 - Power 1000 Watts.
 - Stainless steel motor block with ventilation openings on the top for a perfect watertight seal.
 - Speed 9500 rpm.
 - Patented "EasyPlug" system which allows easier replacement of the power cable by the assistance service.
 - Ergonomic double handle in stainless steel.
- **SHAFT AND BELL**
 - 100% stainless steel blades, reinforced bell and barrel (total length 350 mm).
 - Foot with bell and detachable blades (exclusive patented Robot-Coupe system).
 - Watertight system designed to increase lifespan.
 - The reinforced bell makes the mixer easier to move on the bottom of the tilting braising pan.

TECHNICAL DATA :

- Power: 1000W
- Voltage: Single phase 230 V
- Speed: 9500 rpm
- Detachable knife: Yes
- Equipped with: EasyPlug
- Knife, bell and barrel: Length 350 mm - entirely in stainless steel
- Removable bell: Yes
- Reinforced bell: Yes
- Secondary handle: Integrated stainless steel handle
- Electronic Booster System: Electronic device that improves engine performance
- Removable foot: Yes
- Dimensions: Length 845 mm, Ø 125 mm
- Net weight (kg): 6.4
- Gross weight (kg): 8.2
- Accessory : Wall Mount - Included
