Electric RINSE AID DOSING PUMP, Mod. IPCR6/BRIL :

- The IPCR6/BRIL dosing pump for **rinse aid with an adjustable flow rate from: 0-1 Lt/h** and a **delivery pressure of 3 Bar** .
- **Easy to install and start** by connecting it to the washing machine.
- The accessories include 2 meters PVC pipe, 2 meters PE pipe, stainless steel filter and a stainless steel valve.

TECHNICAL DATA

- **SELF-PRIMING**
- **FLOW RATE Adjustable from** : 0-1 litres/h.
- **POWER SUPPLY** : standard 230V 50/60 Hz
- **HOSE** : Teknoprene© SIL standard
- **POWER ON** : standard from external power supply.
- **DELIVERY PRESSURE** : 3 Bar

INCLUDED

- 2 meter PVC pipe, 2 meter PE pipe, stainless steel filter and a stainless steel valve

FUNCTIONALITY'

- The IPCR6/BRIL pump, specifically for the catering and hospitality sector, can be used in various concrete applications related to cleaning and hygiene maintenance. Here are some examples:
- **Industrial Dishwashers** : Regulates the dosage of rinse aid or detergent, ensuring optimal cleaning of large quantities of dishes with professional dishwashers in restaurants, hotels and canteens.
- **Kitchen Utensil Cleaning Machines** : Ideal for the precise dosing of detergents or rinse aids in specialized machines for cleaning pots, cutlery and utensils used in large kitchens.
- **Automatic tray and container washing systems** : Used to dose rinse aid or detergent in machines that wash trays, glasses and containers in canteens or catering.
- **Automated cleaning systems in industrial kitchens** : It can be integrated into washing systems that clean surfaces or machinery inside professional kitchens, maintaining hygiene and food safety.
- **Food Equipment Washes** : Used in systems to clean equipment such as mixers, slicers, and kitchen machinery that require precise cleaning with detergents.
These applications demonstrate how the IPCR6/BRIL pump can simplify and optimize the cleaning process, making catering management more efficient and ensuring a high level of hygiene.
