Services and Technologies for professional catering since 1973

TECHNICAL CARD

power supply	Monofase
Volts	V 230/1
frequency (Hz)	50
motor power capacity (Kw)	0,75
net weight (Kg)	30
breadth (mm)	360
depth (mm)	420
height (mm)	370

PROFESSIONAL DESCRIPTION

COUNTER-TOP VACUUM PACKAGING MACHINE WITH BELL, 25 cm SEALING BAR, VACUUM LINE :

- **VACUUM LINE** with 3.5" colour display, fully automatic. Possibility of storing 5 user programmes, One Touch system as standard and marinating programme.
- **CLEAN PUMP CYCLE** : The "Clean Pump" function is the regeneration of the oil inside the pump. It allows the oil to reach high temperatures, so as to allow the evaporation of humidity and any impurities present in the oil itself.
- **MARINATING PROGRAM** : Work cycle that allows alternating small vacuum cycles and pressure restoration cycles inside the bell. Through this operation, during the pressure restoration phase, the pores of the food are subjected to an opening stress, therefore the seasoning present in the bag will be absorbed more easily and homogeneously.
- **GASTROVAC SYSTEM**: Function for suction in external containers using the appropriate connection accessory and a set of gastronorm vacuum containers.

TECHNICAL FEATURES :

- Marinating program
- Autostart
- Clean pump
- One-touch system
- 5 programs

TECHNICAL DATA :

- Dimensions mm: 360x420x370h
- Chamber dimensions mm: 260x300x120h
- Welding bar mm: 250

- Vacuum pump flow rate mc/h: 8
- Power supply V/Hz/kW: 230/50/0.75
- Welding: Membrane
- Weight Kg: 30

OPTIONAL/ACCESSORIES :

- Inclined plane
- Machine support trolley
