Services and Technologies for professional catering since 1973

TECHNICAL CARD

power supply	Monofase
Volts	V 230/1
frequency (Hz)	50
motor power capacity (Kw)	1,2
net weight (Kg)	67
breadth (mm)	620
depth (mm)	650
height (mm)	450

PROFESSIONAL DESCRIPTION

COUNTER-TOP VACUUM PACKAGING MACHINE WITH CHAMBER, 50 cm SEALING BAR, VACUUM LINE :

- **VACUUM LINE** with 3.5" colour display, fully automatic. Possibility of storing 5 user programmes, One Touch system as standard and marinating programme.

TECHNICAL FEATURES :

- **MARINATING PROGRAM** : Work cycle that allows alternating small vacuum cycles and pressure restoration cycles inside the bell. Through this operation, during the pressure restoration phase, the pores of the food are subjected to an opening stress, therefore the seasoning present in the bag will be absorbed more easily and homogeneously.
- **CLEAN PUMP CYCLE** : The "Clean Pump" function is the regeneration of the oil inside the pump. It allows the oil to reach high temperatures, so as to allow the evaporation of humidity and any impurities present in the oil itself.
- **GASTROVAC SYSTEM** : Function for suction in external containers using the appropriate connection accessory and a set of gastronomic vacuum containers.
- **AUTOMATIC START**
- **ONE TOUCH SYSTEM**
- **5 PROGRAMS**

TECHNICAL DATA :

- Dimensions mm: 620x650x450h
- Chamber dimensions mm: 520x520x220h
- Welding bar mm: 500
- Vacuum pump flow rate mc/h: 16

- Power supply V/Hz/kW: 230/50/1.2
- Welding: Membrane
- Weight Kg: 67

OPTIONAL/ACCESSORIES :

- Inclined plane
- Machine support trolley
