| frequency (Hz) | 50 |
| motor power capacity (Kw) | 2,7 |
| net weight (Kg) | 148 |
| gross weight (Kg) | 165,5 |
| breadth (mm) | 1255 |
| depth (mm) | 595 |
| height (mm) | 860 |

PROFESSIONAL DESCRIPTION

ICE MAKER in FULL CUBES with SPRAY SYSTEM, WITHOUT DEPOSIT, yield 300 Kg / 24 hours :

- **FULL CUBE** : High density, crystalline and pure full cube. Suitable for prolonged cooling of any drink (without watering it down) in any situation of use.
- **HORIZONTAL EVAPORATOR, SPRAY SYSTEM** : The horizontal evaporator is made up of truncated cone-shaped copper bowls facing downwards. A pump sends pressurized water which, through nozzles, is sprayed onto the evaporator. Ice forms inside the bowls and is detached by heating them for a short time.
- **BACK STAGE** : Modular appliance to be used in combination with a large capacity store (container) to be installed generally in the back room (backstage): it is not seen but works hard producing ice continuously. Particularly suitable for restaurants, hotels, discos, fast foods. It represents a tireless producer that also satisfies seasonal and work peaks. Tropicalized model: it can be installed up to ambient temperatures of 43°C and using a water temperature of up to 32°C. Stainless steel body.

TECHNICAL DATA :

- Dimensions (LxDxH): 1255x595x860h mm
- Production in 24h (21°C - 15°C): 300 Kg
- Production per cycle: 216 ice cubes
- Ice type: Full cube 18 gr
- Cooling system: Air / Water
- Refrigerant type: R 290
- Standard voltage: 230 V~ 50 Hz
- Power consumption: 2700 W
- Cube dimensions (LxH): 33x30 mm

- Net weight: 148 Kg
- Gross weight: 165.5 Kg

ACCESSORIES/OPTIONALS :

- Ice storage with storage capacity: 400 Kg
