

PROFESSIONAL DESCRIPTION

HOT INFRARED TABLE on ALUMINUM FRAME with LIGHTING for Under-Application - COMPLETE RANGE with length from 457 mm to 1,829 mm :

- ensures **uniform heat distribution** , without cold areas;
- maintains the temperature of the food without drying or continuing cooking, ensures maximum fragrance, safety and storage time;
- The end result is a **hot or fresh dish ready to be served** ;
- The resistant continuous aluminum body and the sturdy assemblies ensure durability and quality of the products;
- robust casings in non-deformable extruded aluminum from 457 to 1829 mm;
- The reflector does not blacken, ensuring a **constant supply of heat** , the reinforced protection provides operator safety without affecting heat distribution;
- possibility of fixing with brackets, with chains or with the comfortable C and T supports (Optional).

Accessories / Optional :

- pair of C-supports h 343 mm
- pair of T-supports h 343 mm
- ceiling fixing plates
- suspension chain 60 cm
