Services and Technologies for professional catering since 1973

PROFESSIONAL DESCRIPTION

- **Professional portable 2 g / h ozone generator capable of treating rooms up to 120 m3**
-
- Given its **versatility**, the system allows you to **disinfect and deodorize** both means of transport and various types of premises (e.g. offices, apartments, clinics, restaurants, kitchens, common areas).
- Ozone, as gas, has the ability to **sanitize even areas that are difficult to reach with ordinary cleaning**.
- Used to **prevent the formation of bacteria, mites, odors, viruses, spores, molds, etc.**
- **Ozone generation through electric discharge with quartz board;**
- Ozone: 2 g / h;
- **Generation chamber in steel, not watertight;**
- Steel body, pipes and pump body in PVC;
- Machine alarm active: only luminous activation display;
- dimensions 310x150x200h mm

The Ministry of Health with protocol of July 31, 1996 No. 24482, recognized the use of ozone in the treatment of air and water, as a natural aid for the sterilization of environments contaminated by bacteria, viruses, spores, molds and mites.
