**PROFESSIONAL DESCRIPTION**

QUADRO WINE REFRIGERATED DISPLAY, with 1 BOTTLE and 2 GLASSES, Temp. +4°/+10°C :

- **Design and technology come together** to create the first refrigerated cabinet ever made in the world. **An absolutely innovative object, with a refined design, capable of making any environment in which it is inserted special ;**
- The Quadro Vino n.12 is a **refrigerated display for one bottle and two glasses ;**
- **The internal temperature varies from +4° to +10 °C** according to the ambient temperature;
- The **QV12 must not be used at ambient temperatures below +18 °C;**
- **Defrosting is managed by time or** via an electronic card which stops the refrigeration system for 15 minutes every 3 hours of operation;
- **It allows to conserve and serve different wines at the right temperature ;**
- **Refrigeration is obtained with a silent thermoelectric plant** with very limited consumption;
- **Ecological refrigeration system** free of polluting gases and built with recyclable materials;
- The replacement of components is simple and always makes the repair of the product convenient;
- **The minimum depth and wall installation allow it to be inserted even in very small spaces ;**
- **It is an object designed primarily for the hotel room but extraordinary in any environment** . A unique and new atmosphere that invites you to a truly special toast.
