

PROFESSIONAL DESCRIPTION

Gravity slicers in aluminum alloy with **gear transmission, blade diameter 300 mm** - available in **single-phase or three-phase** versions .

- Blade diameter 300 mm;
- With **wide base** , ideal for any type of shop or supermarket.
- The **gear transmission is very reliable** , **resistant to stress** , and **allows you to cut even the hardest products** .
- In fact, the gear transmission manages to satisfy even the **most demanding customers** , eliminating several problems: that of belt wear, that of the need for continuous maintenance and adjustment of the belt itself and finally those that can sometimes occur due to belt slippage.
- Trolley stroke 290 mm
- Blade revolutions n.220 per minute;
- Cutting regulator 14 mm
- Cutting capacity Ø mm 215 - mm 215X270
- **ALSO AVAILABLE IN A LONG STROKE VERSION, with a larger base, for better cutting capacity.**
