Services and Technologies for professional catering since 1973

PROFESSIONAL DESCRIPTION

ELECTRIC STEAM CONVECTION OVEN ventilated for GASTRONOMY with ELECTROMECHANICAL controls:

- professional mixed oven, which ensures robustness, reliability and immediacy of use;
- **AISI 304 stainless steel watertight chamber** with dimensions mm. 590x375x490h;
- **capacity 4 Gastronorm 1/1 trays** (mm 530x325) ;
- **pitch** between the Guides: **70 mm**;
- Minute minder timer 0-120 min;
- immediate and intuitive use: just three commands to adjust each parameter as desired;
- **the first knob regulates the temperature** , the **second regulates the cooking duration** , the **third** is the selector to define the **quantity of humidity to be introduced into the chamber, on 7 levels** ;
- cooking parameters can also be modified during the execution of the recipe;
- at the top **two indicator lights** : one to indicate that the oven is on and one to indicate when the heating elements are working;
- at the top of the dashboard there is the button for **opening the vent to evacuate steam** from the cooking chamber; at the bottom the power button;
- **electromechanical ovens operate on convection (50-275 °C) and mixed cycle (60-275 °C) with preheating** . In the mixed cycle, 19 humidity levels can be managed;
- the **room is well lit during cooking** ;
- **cooking uniformity** is ensured by: • **The deflector** , designed for the best distribution of heat in the chamber. • **The grids are well spaced** , with a distance between centers of 70 mm;
- **easy opening handle** with right/left movement;
- **steam condensation for exhaust protection** ;
- IPX3 water protection rating;
- foot adjustment 65/75 mm.

OPTIONAL/ACCESSORIES:

- Base support for oven
- Base support with oven tray holders
