

PROFESSIONAL DESCRIPTION

Vertical slicers with aluminum alloy salami plate with gear transmission, blade diameter 350 mm - available in single-phase or three-phase version

- **Blade diameter** 350 mm;
- Equipped with a **double sliding plate and column arm**, it is characterized by a **large cutting capacity** which makes it particularly **suitable for cutting large cured meats**.
- Equipped with a **mechanical sharpener**, it allows for simple and rapid sharpening.
- Ideal for supermarkets, butchers and large cooking centres.
- The **gear transmission is very reliable, resistant to stress**, and **allows you to cut even the hardest products**.
- In fact, the gear transmission manages to satisfy even the **most demanding customers**, eliminating several problems: that of belt wear, that of the need for continuous maintenance and adjustment of the belt itself and finally those that can sometimes occur due to belt slippage.
- **Trolley stroke** 365 mm
- **Cutting regulator** 16 mm
- **Blade revolutions** n.220 per minute;
- **Cutting capacity** Ø mm 265 - mm 265x310
