PROFESSIONAL DESCRIPTION		

Automatic portioning machine :

- **machine designed for pizzerias , bakeries and pastry shops , makes work easier by significantly reducing preparation time ,** without interrupting the leavening process;
- **creates dough portions of different sizes , from 30 to 300 grams ,** with an innovative cone calibration system, using 5 easily interchangeable bushings;
- the whole machine is very robust and easy to clean and is **made of stainless steel and aluminium ;**
- **equipped with a tank with a capacity of 30 kg** and works by extruding the dough using a spiral tool;
- equipped with **two combined adjustment systems to create any dough weight ;**
- Complete with SPEED VARIATOR for EXTRUSION Motor - increases the cutting speed,
- **hourly production up to approximately 600 portions;**
- the dough handling parts are easy to remove for cleaning and replacement;
- all components meet hygiene and safety regulations.
