Services and Technologies for professional catering since 1973

PROFESSIONAL DESCRIPTION

ROUND PERFORATED PIZZA PEEL in ALUMINUM, BLUE Line, light, flexible and resistant, complete range :

- **Shovel with neutral anodized aluminum head and blue anodized handle .**
- It has a **reduced weight compared to the classic models** but an **extreme sturdiness** with the **oval tubular handle to promote stability** .
- **The light and flexible head allows the spatula effect** with special ribs that ensure the seal.
- **The neutral anodization makes the surface uniform** and protects it from oxidation.
- **The sweet and regular milling** facilitates the rise of the pizza.
- The handle head joint is made up of the overlapping of the two elements secured by **three large in-line rivets** which guarantee safety and immovability, furthermore the absence of vibrations transmitted to the handle makes it more comfortable to use.
- **The perforated surface gives low friction and discharges the flour**, preventing it from sticking to the bottom of the pizza and risking burning.

CE MARK
MADE IN ITALY

AVAILABLE MODELS
