

#### PROFESSIONAL DESCRIPTION

**Round , 2-layer high-performance non - stick pizza pan , resistant to 280 ° C, complete range with diameter from 20 to 32 cm , with 2.5 cm high flared rim.**

NOTE: This item can be purchased in a 5 piece package.

#### INSTRUCTIONS FOR USE AND MAINTENANCE OF THE TRAYS

##### IMPORTANT :

Regardless of the type of material, all the flat trays are **never left empty** .

##### NON-STICKING TRAYS

**For cleaning** use the air jet or soft nylon brushes. **Do not scratch the coating** with metal tools or abrasive brushes as the incisions may give rise to permeation and following corrosion.

**Do not put empty molds in the oven at temperatures above 200 ° C.** This temperature represents the thermal resistance limit of the resin. Furthermore, at this temperature the coating sensibly softens, leading to a rapid decay of the non-stick characteristics.

**Do not wash the pans with high pressure pulivapor and do not use caustic solutions.**

**For cleaning use damp soft cloths.**
