PROFESSIONAL DESCRIPTION		

GRILL VAPOR 700 series, TOP version, POWER Line, 3 GAS cooking modules :

- made of **AISI 304 stainless steel** ;
- **hob size 1155x470 mm** ;
- **3 cooking zones with independent controls** ;
- **3 removable cooking grids in rods** ;
- **patented device to adjust the grill height in 2 positions** , it is applied in each cooking zone and is independent in the two and three module appliances ;
- **piezo ignition** ;
- **burners complete with pilot flame** and **safety thermocouple** ;
- **water drawer under the burners** powered by **manual filling** ;
- cooking system by **heat radiation** for grilling **in a natural and healthy way**, enhancing the best **organoleptic characteristics and softness of the foods** , favoring the **dispersion of fats** ;
- natural gas or LPG fuel supply;
- methane consumption - mc/h-LPG Kg/h: 3.33 / 2.46.

POWER LINE is the line of Grillvapor Arris gas specific for thick meats and rapid cooking at high temperatures such as high grilling capable of reaching a temperature of OVER 400°C uniformly spread over the entire hob thanks to the use of high-temperature burners efficiency that cook food by radiation.

In addition, the grills are equipped with a **device that changes the height of the grilled food for rapid regulation of the heat transmitted to the food** . Grillvapor power line is particularly suitable for: Florentine, rump steak, flank steak, T-bone, dry aged beef, and all high grilling techniques.

The top FREE-STANDING model with manual loading and unloading can BE POSITIONED ON TABLES or on our REFRIGERATED BASES or on our bases with open or closed cabinets.

Thanks to the patented Arris Grillvapor® technology, **the weight loss (-20%) and the mass loss to increase the portions of cooked foods are reduced** , bringing great economic benefits to those who use Grillvapor®. The humidification of the hob allows for faster cooking (+20% on average compared to traditional grilling systems) and allows you to cook in a healthy way while keeping the colors of the food alive. The patented Arris Grillvapor® technology, thanks to the particular cooking system, also enhances the flavors and organoleptic characteristics of the foods, eliminating the use of seasoning oils and fats for further economic savings.

Grilling system with GRILLVAPOR ® technology that combines high temperatures and humidification of the cooking area to offer you:

- **High temperatures for perfect grilling** .
- **Maintenance of juiciness inside the food** .
- Less weight loss, attested on average around 25% (**savings for the restaurateur**).
- Less drop in product volume (**more portions**).
- Less use of oil and condiments for healthier cooking.
- Faster cooking (+20% compared to traditional grills).
- Improvement of the organoleptic characteristics of the food.
- **Reduction of smoke** .
- **Better thermal shock absorption** .
- Better heat distribution.
- We speed up cleaning processes, less manpower for cleaning.
