PROFESSIONAL DESCRIPTION		

**BLENDER-BLENDER, HAMILTON BEACH brand, with 1.8 liter polycarbonate glass , HIGH PERFORMANCE and QUIET BLEND versions**

- **professional blender ideal for producing more than 75 cocktails a day ;**
- equipped with a **soundproof bell with sensor to eliminate annoying noises** during the making of the cocktail (Quiet Blend version);
- the **patented 'one touch sensor blending' technology** continuously monitors the blender motor and speed automatically determining when the drink has reached the perfect consistency;
- **automatic shutdown** : as soon as the drink is perfectly creamy, the blender stops, avoiding blending the ingredients excessively or insufficiently;
- **super-creamy Drink Profile** : the Wave action system, thanks to the speed and design of the blades, reduces the ice from a granita to a creamy drink;
- **cavitation control** : detects when cavitation occurs and alerts the operator to add more liquid;
- **Airflow Deflector** : A dual fan constantly circulates cool air around the motor for back-to-back blending and longer blender life;
- **container sensor** : stops the motor when the container is not correctly positioned, reducing wear due to incorrect use;
- equipped with **4 stainless steel blades** and **Wave Action system** which **guarantees a continuous and constant mix** , for lump-free, perfectly blended drinks;
- the **Wave Action system continuously pushes the dough downwards towards the blades** for better homogeneity, unlike normal blenders which push the ingredients against the sides of the container leaving some parts intact away from the blades;
- ideal for whole ice cubes;
- **touchpad controls with 4 programmable keys ;**
- **cycle programming via USB ;**
- it has an engine with a power of 3 HP;
- **convertible for benchtop use ;**
- **Sure Grip non-slip rubber feet** , which allow you to keep the blender firmly on your counter;
- suitable for all bars, yogurt shops and ice cream parlors that want to integrate the production of their activities, offering customers the opportunity to enjoy an exotic cocktail, an artisanal granita or an iced milkshake.

**CE mark**  
**Made in Italy**

**Sistema Wave action**  
spinge continuamente l'impasto  
in basso verso le lame per una  
migliore omogeneità.

Auto blend arresta il frullatore  
quando il drink ha raggiunto la  
perfetta consistenza.

Il deflettore per il flusso d'aria  
mantiene il motore freddo ed  
impedisce l'ingresso di acqua.

Porta usb per futuri  
aggiornamenti del programma.

Una doppia ventola mantiene  
automaticamente freddo il  
motore tra un uso e l'altro.
